DISCOVER ZUIDAS IN YOUR HOME: *“Total4Living Amsterdam makes creative connections”*

In the dynamic world of interiors, Hiske de Jong, interior designer at Total4Living Amsterdam, devotes her expertise to advising on complete interior and numerous designs. She shared with us how her passion for perfection and creativity led to a unique collection inspired by the architecture of Zuidas. Specialising in bespoke furniture and accessories, Total4Living creates interiors perfectly tailored to individuals wants and style.

Total4Living and Zuidas

“We have our own collection, which is now evolving into a full-fledged brand. Part of this home collection is inspired by the different shapes of the buildings in Zuidas. We supply these pieces to any desired size. Sofas with names like George, Gustav and Valley are part of this collection and of course are inspired by these iconic buildings in Zuidas”, Hiske says by way of introduction. Total4Living Amsterdam has a rich track record of designing interiors for apartments in Zuidas. And what better, asks Hiske, than to build on that valuable connection? “Every piece of furniture has its own story and character. For example, our Valley dining room set features a

splendid pattern that echoes the forms of the Valley building.”

Vibrant, personal interiors

In addition to its existing line of furnishings, Total4Living is currently expanding its collection of home accessories. “We are working with an Amsterdam-based supplier to develop a collection of fully customisable lamps as well as cushions and poufs”, Hiske says. “They are all custom-made for us, and the lampshades can be supplied in any fabric or wallpaper.”

Total4Living prides itself on being on keeping ahead of the trends. “Rather than working with seasons, we look at what we

think is beautiful and important”, Hiske continues. “Sustainability has always been a key consideration for us. We aim for production in the Benelux in order to guarantee short lines and practical delivery.” Total4Living also encourages individual expression in interiors. “Everyone should feel free to pursue their own style”, Hiske emphasises. “We are seeing increasingly bold combinations of prints and colours and that gives interiors so much more vibrancy and personality. We love that!”
